Afterword

This might be sudden, but let's talk about how I started this manga.

I'm the author, Rimukuro.

Thank you very much for buying 'Sewayaki Kitsune no Senko-san' Volume 1.

If there's none then I just have to draw it myself!!

Isn't it an essential part of life? There's no manga about nojya loli taking care of people...

That's weird.

I want a nojya loli kitsune girl to take care of me, that's all I'm feeling right now.

It was when I was utterly exhausted.
